

Programme Committees School Council

Information summary	
Subject	Evaluation report 2019 – 2024 Quality Agenda (HOKA)
To be discussed in meeting	May 2025
From department	Programme Management
Date	2 May 2025

Context
In 2018, Dutch universities, universities of applied sciences, student organisations, and the Ministry of Education, Culture and Science (OCW) committed to enhancing higher education using government-funded study financing. These funds were to be invested based on the Quality Agreements for Higher Education (Hoger Onderwijs Kwaliteitsafspraken, or HOKA), covering the period from 2019 to 2024. In 2019, we outlined our plans in a Quality Agenda, developed in collaboration with the participation bodies (the four programme committees and the School Council). This agenda defined priority areas for educational improvement and innovation projects for the 2019-2024 period. This report evaluates the results of the 2019-2024 HOKA activities. The evaluation is based on the original Quality Agenda 2019, as well as updated plans introduced in September 2022 following a mid-term review. For your convenience, the original Quality Agenda and the midterm review are also appended. Note that the School Council has discussed and approved the new Quality Agenda Education ESE 2025 - 2028 (HOKA --> BAO) in earlier meetings this academic year.
