

Task Force for discussion EUR University Council	
Title Task Force (TF)	Student Housing
Brief summary	There is an initiative from the Faculty Councils to urge our EB to get more involved in the problems that surround the housing of students. Research showed that 86% of the rooms in Rotterdam are overpriced, meaning that if students finally get a room they have to pay large amounts of money. The Task Force should work together with the faculty councils and other student organisations that want to get involved and come up with the best advice possible for the EB. As a note: we recognise that the EB has already asked the municipality to take the issue seriously, however that focusses primarily on the shortage of houses and not on the prices.
UC member that want to join	Friso,
Link with other TF's	Perhaps student wellbeing
Expected time investment – cycles in which the TF will be active	3 rd cycle, thus 1 November until 3th of December
