

ADDENDUM TO "HEQA PLAN" – Impact at the Core

To : University Council
From : D.H.B van Vliet, Project Lead "Impact at the Core"
Date : 24-6-2020
Subject : Addendum to "HEQA PLAN" – Impact at the Core

This document is an addition to the complete HEQA plan "Impact at the Core" that was offered to the University Council and discussed during the CRE meeting on the 23rd of June. In the document provided to you it is still stated that a Ph.D project will be carried out to analyse and evaluate the educational models applied in the various projects (p. 16). However, we have changed this into a post-doc research. It was requested by the committee to have this information in writing before discussing the plan for consent at the plenary meeting on the 30th of June.

Summary addendum

- Instead of Ph.D's we will have a post-doc research (p. 16)
- The work-package 1.6 "Building the evidence-base" will have the word Ph.D. changed with "post-doc" (p. 17)
- The timeline in the Gantt chart will be adapted to a post-doc process
- Underneath "Growth of Project team" (Appendix 8; p. 58) we will change the word Ph.D 1&2 into post-doc.
- The word Ph.D will be changed to post-doc (p. 3,4)
