

'Quick' wins initiatives & follow up

- Improving the process for drawing up the Erasmus Perspective
 - Timely communication about the overall schedule (already communicated)
 - Timely involvement in decisions and considerations in the EP (meetings scheduled)
- Clearing up basic services and costs and related governance (currently negotiating)
- Scheduling road shows to further explain the allocation model (will be scheduled soon)
- Writing up guidance in which the choices and division are clarified further.
- Provide an overview of findings in the report and on what term they can be addressed
- Make an inventory of the parameters used in the allocation models of other universities
- Based on this inventory and guidance from the steering group, calculate different scenario's of allocating the first moneystream
