Subject

Numerus fixus bachelor en capaciteitsbeperking master 2023-2024

Dear Executive Board,

In response to the letter of 15 December 2021 sent by E&S, Subject: *Numerus fixus bachelor en capaciteitsbeperking master 2023-2024*, I would like to inform you about the selection process and admission restrictions which will apply for the 2023-2024 intake for the publicly funded master programmes of Rotterdam School of Management, Erasmus University. Attached you find a complete overview per programme group.

We propose admission restrictions for the following programmes:

- MSc International Management (60256), 65 seats. This programme is embedded in an international network of business schools and includes a mandatory international exchange semester that implies a restriction of available exchange seats on the side of the partner schools.
- MScBA Business Administration (60644), 580 seats. This is required due to capacity restrictions.
- MSc Business Information Management (60453), 250 seats. This is required due to capacity restrictions.
- MSc Finance & Investments (60409), 340 seats. This is required due to capacity restrictions.
- MSc Global Business & Sustainability (60456): 250 seats. This is required due to capacity restrictions.
- MSc Marketing Management (60063): 260 seats. This is required due to capacity restrictions.
- MSc Strategic Entrepreneurship (60455): 125 seats. This is required due to capacity restrictions.
- MSc Strategic Management (60066): 350 seats. This is required due to capacity restrictions.

The application deadline for all one-year MSc programmes will be 15 May 2023. The application deadline for the 18-month MSc International Management/CEMS will be 31 January 2023.

The 18-month MSc International Management/ CEMS (CROHO 60256) is a selective programme where applicants are ranked after the deadline according to the criteria listed in the attachment. In the other programmes with capacity restrictions students are admitted on a first-come-first-serve basis if they meet the necessary admission criteria until the maximum number of applications to fill the available seats is reached.

The selection process and admission restrictions for 2023-2024 are identical with those approved by the Executive Board 2022-2023; therefore, a separate advice from the Faculty Council is not required. Please let me know if you have any further questions.

Kind regards,

Prof. dr. A. Richter
Dean

Attachment: *Description of the admission for the RSM MSc programmes 2023-2024*

Attachments: Description of the admission for the RSM MSc programmes

CROHO - Programme name	60256 - MSc International Management (IM)
Study form	Full-time
