Dear members of the University Council,

First of all, we want to express our gratitude for your consent on the majority of our plans to further develop the quality of education, following the midterm evaluation of the HEQA-plans for (2022) and the conclusions of that process in the educational vision.

Secondly, we decided (given the time restrictions) to work with short project descriptions. In hindsight, we understand that - in order for the Council to come to a well-supported consent - the information was too concise. We have taken notice of your opinion that funding should mostly benefit current students, and mainly on campus.

We have requested Academic Affairs to create an overview of all initiatives regarding online and hybrid education in relation to the educational vision and the on campus/online learning environment. The Community of Learning and Innovation will engage in a further dialogue and present a more detailed project plan in the fourth quarter of 2023.

We hope that, given a better overview and with the help of a more detailed project plan, the Council will be able to reevaluate further plans,

The Executive Board of Erasmus University Rotterdam,

Prof.dr. A.L. Bredenoord
Rector Magnificus
