Case number: b21.00155

Details	
Topic	Update CLI 2021
To be discussed before	25-05-2021
Author / Section	Marieke Veenstra / CLI
Handled by (to be invited to the committee)	Jeroen Jansz, Marieke Veenstra, Jordie van der Burgt
Date	12-4-2021

Context / Reason
Twice a year the CLI informs the U-council about the progress and plans for the coming year.

Jurisdiction UC / Question to the UC
The UC has the right of consent in respect to the SVM and the HOKA-budget.

Short Summary
The update starts by describing the mission of the CLI: connect, involve, support.   The target groups are indicated and the themes on which the CLI focuses are described: 1.   Professional development of teachers   2.   Educational innovation and digitalisation   3.   Evaluation and research of educational innovations   The first part of the update looks back at the CLI work in 2020. Much was determined by the COVID crisis, which accelerated the development towards online education and testing. The faculties, together with the CLI and the services, have done their utmost to ensure that education and examinations continue at the required quality level.   The core of the update is the activity plan for 2021. At the request of the Executive Board, a number of points in the budget have been adjusted. The CLI stays close to the core themes of EUR Strategy 2024 in supporting the implementation of future-oriented education. Space has been created in the budget for the development of ErasmusU_Online.

Follow-up process
The Executive Board has already approved the Update including the budget for 2021.The EB has asked the CLI to implement ErasmusU_Online as a new project in close coordination with the faculties and professional services. The EB also asked the director to secure the CLI as a service-organization that is committed to realising future proof education in collaboration with the faculties. The comments and advice of the UC will be incorporated in the plan that will be made for institutionalizing the CLI.
