

Topic 1 for discussion EUR University Council	
Committee	CRE
Expected to be included in the cycle of	Week 13-15, 2020
Date submitted	28 Mar, 2020
Subject	Online lectures for all faculties
Submitted by	Younes Assou
Explanation	<p>Previous year 200 students of econometrics have petitioned to want online lectures. This year more than 1200 students have filled in a survey that they want to have online lectures across all faculties. Online lectures does not have a bad effect on the education see this research of LBS.</p> <p>I have already been advocating for online lectures from the beginning of 2018 and will continue on this day. The other reason is, a lot of students are not able to rent a house in Rotterdam due to increasing prices.</p> <p>From the survey we can see that still a lot of students are living at home with their parents or outside of Rotterdam.</p>
